

# TOWN PLANNING

# DESCRIPTION

Town planning is featured for the first time during **Tirutsava**, the annual techno-cultural festival of the Indian Institute of Technology Tirupati. It is a two-round online competition in which each team has to plan a new town based on the given problem statement. You have to submit a layout of a town along with a detailed report satisfying the given problem statement. The problem statement will be released later.

## GUIDELINES

- There are two rounds in the competition.
- The first phase requires you to submit the layout(Hand-drawn or Auto CAD) and report (pdf format). What you have to add in report will be released with problem statement.
- The second round will be an online presentation round where the selected teams will be required to present their reports to a panel of judges through an online meeting.
- You can participate as an individual or as a team. A team can consist of a maximum of 3 members.
- The members need not be of the same institute.
- For further information about the event, contact the event organizers.
- The problem statement will include information on where to submit your report.

## RULES AND REGULATIONS

- Any form of plagiarism or malpractice will result in the disqualification of the team from the event.
- The organizing team reserves the right to change the rules at any point in time and all decisions in the matter of eligibility and the final judgment will be with the organizing team.
- Environmental aspects ( carbon foot-cycle), suitable designs for given climatic and geographical conditions, and facilities in town will be major judging criteria.

PRIZES
